

ZOFIA

| DECENTRALIZED FINANCE ON ETHEREUM

A transparent, community-driven DeFi token with staking rewards, on-chain governance, and deflationary tokenomics.

Whitepaper Version: 3.0

Date: September 2026

Network: Ethereum (ERC-20)

Contract:

0xAc7F8369c5C7f8D0f2Eb6b2C2bF9493069707274

Founder:

Moqit Hossain Alghozi

1 Introduction

ZOFIA (Zooqofficial) is a next-generation decentralized finance (DeFi) token built on the Ethereum blockchain. It is designed to provide a transparent, sustainable, and community-driven ecosystem that rewards long-term holders and empowers participants through on-chain governance.

ZOFIA stands as a beacon of true decentralization. Our mission is to create a token that serves not only as a medium of exchange but also as a tool for collective decision-making and value creation.

Key Achievement: ZOFIA's smart contract has been fully verified on Etherscan, and ownership has been renounced — making it a truly decentralized, trustless token with no central authority.

2 Vision & Mission

Our Vision

To become the most trusted and transparent DeFi token on Ethereum, where the community holds the real power to shape the future of the protocol.

Our Mission

To provide a robust, secure, and user-friendly decentralized financial infrastructure that enables individuals to take control of their financial assets, earn passive income, and participate in the governance of the ecosystem.

3 Core Features

- ▶ **Staking Rewards** — Earn passive income by staking ZOFIA tokens.
- ▶ **On-Chain Governance** — Real voting power for holders on key protocol decisions.
- ▶ **Deflationary Burn** — 2% burn per transaction, permanently reducing supply.
- ▶ **Cross-Chain Bridge (Coming Soon)** — Planned transfers between Ethereum and Avalanche.
- ▶ **Renounced Ownership** — No central authority can mint new tokens or modify the contract.
- ▶ **3-Year Locked Liquidity** — Maximum investor protection and price stability.

Token Details

Attribute	Value
Token Name	zooq official
Symbol	ZOFIA
Network	Ethereum (ERC-20)
Total Supply	100,000,000,000,000 ZOFIA
Decimals	18
Contract Address	0xAc7F8369c5C7f8D0f2Eb6b2C2bF9493069707274
Liquidity Lock	3 Years
Audit	CertiK (In Progress) + ContractScan (84/100)
Burn Mechanism	2% per transaction
Ownership	Renounced (0x0000...0000)

Token Distribution

Allocation	Percentage	Amount	Vesting
Public Presale	30%	30,000,000,000,000	No lock
Liquidity Pool	25%	25,000,000,000,000	Locked 3 years
Team & Advisors	20%	20,000,000,000,000	24-month vesting
Ecosystem Fund	15%	15,000,000,000,000	DAO controlled
Marketing & Partnerships	10%	10,000,000,000,000	12-month vesting

5 Roadmap

| Phase 1 — Foundation (Completed)

- ▶ ▫ Smart contract deployed and verified on Etherscan (Exact Match)
- ▶ ▫ 3-year liquidity lock on QuickSwap
- ▶ ▫ Website and community channels launched
- ▶ ▫ Whitepaper published
- ▶ Ownership renounced — fully decentralized
- ▶ ContractScan security audit completed (84/100)
- ▶ CertiK audit in progress

| Phase 2 — Growth (Current)

- ▶ ▫ Live presale on Fjord Foundry
- ▶ ▫ Staking platform development
- ▶ CoinGecko & CoinMarketCap listing applications
- ▶ Strategic marketing campaigns
- ▶ Community expansion

| Phase 3 — Expansion (Q4 2026)

- ▶ ▫ Staking platform launch
- ▶ ▫ Cross-chain bridge to Avalanche
- ▶ Developer grants and hackathons
- ▶ DAO governance implementation
- ▶ Tier-1 CEX listings

6 Security & Transparency

Feature	Status
Contract Verification	Exact Match on Etherscan
Ownership	Renounced (0x0000...0000)
ContractScan Security Score	84/100 (Good)
Critical Vulnerabilities	0
High Vulnerabilities	0
Medium Vulnerabilities	0
CertiK Audit	In Progress
Liquidity Lock	3 Years
Team Token Vesting	24 months

Why Is This Important?

Renouncing ownership means that **no one** — not even the founder — can mint new tokens, freeze transfers, or modify the contract. This guarantees true decentralization and protects investors from rug-pulls.

7 Team

Founder

Moqit Hossain Alghozi — Founder & Lead Blockchain Architect

- ▶ Blockchain developer with expertise in Solidity, EVM-compatible chains, and DeFi protocols.
- ▶ Focused on building sustainable, community-driven Web3 projects.
- ▶ Deployed ZOFIA across Ethereum and Avalanche networks.

Strategic Partners

- ▶ **Lindzon (ICE CALLS)** — AMA partner with 7,000+ community members
- ▶ **Federico (The Block-Chain Calls)** — Telegram channel with 15,300+ subscribers
- ▶ **Stephen (@step_henX)** — Content creator & moderator
- ▶ **Okan Yalçın (@okanyalcın)** — Admin of 118,000+ member Telegram group

Conclusion

ZOFIA represents a new era of decentralized finance. By combining cutting-edge technology with a strong community-driven approach, we aim to create a token that is not only valuable but also empowers its holders.

We invite you to join us on this exciting journey and be part of the DeFi revolution.
